

100kW smart pv-ess integrated cabinet for drilling sites

Overview

This particular project features a 100kW / 215kWh Menred ESS. 100215 unit directly connected to a 76kW solar PV array. The system's architecture includes a built-in 60KW MPPT controller for optimized solar energy harvesting and a 100KW Power Conversion System (PCS) for energy flow. Energy Cube 50kW-100kWh C&i ESS integrates photovoltaic inverters and a 100 kWh energy storage system. Benefit: charge from rooftop PV by day, power the load during outages - one cabinet replaces about 215 kWh of diesel generation a day ~ \$69/day, ~\$24,000/year in fuel, with no genset noise or servicing. Featuring a modular, factory pre-assembled design, it requires no on-site installation or debugging. Built-in air duct. Sunway 100kW/215kWh Energy Storage System is designed for businesses and utilities looking for a safe, intelligent, and efficient way to store and manage energy. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy.
