

# China solar power to battery in Melbourne

## Overview

Chinese solar giant Trinasolar's plans to build a 1,000 MWh battery energy storage system in Victoria's Kiewa Valley have been given the green light by the state government after being fast-tracked through its Development Facilitation Program. Today in Beijing, Premier Jacinta Allan met with Trina Solar - who are. A Chinese company will help deliver cleaner and cheaper energy for thousands of Victorian homes, after the Allan Labor Government gave the green light to a multi-million-dollar renewable energy project in North-East Victoria. The Victorian government has announced the approval of. SHANGHAI, June 5 (Reuters) - China's major solar panel manufacturers are ramping up higher-margin battery exports to boost revenue as growth in photovoltaic (PV) sales slows, betting on rising global demand for renewable energy storage to cut reliance on fossil fuels.

Technology: Solar PV and wind - Global Energy Review 2026 -

Renewable capacity expansion in China continued to increase in 2025, reaching a new record with nearly 500 GW of additions, accounting for over 60% of global growth. Last year, China alone

Hydro Ottawa installs bidirectional meter for solar homes

Hydro Ottawa just installed a new bidirectional meter, an essential upgrade that allows solar systems to send excess energy back to the grid. This small device plays a big role in maximizing ...

Chinese company to deliver Victorian clean energy project

A Chinese company will help deliver cleaner and cheaper energy for thousands of homes, after Victorian Government gave the green light to a multi

CHINA IS INVESTING IN VICTORIA'S CLEAN ENERGY FUTURE

The battery will soak up and store cheap renewable energy during the day and pump it back into the grid at times of peak demand - enough to power up to 172,000 Victorian homes a year. The project

Premier Jacinta Allan fast-tracks \$453m China-backed battery project

The Alban Labor Government has given the green light to a \$453 million battery energy storage system in North-East Victoria, backed by Chinese renewable energy giant Trina Solar.

Chinese Manufacturers Seize Dominant Position in Australia's Battery ...

Chinese battery and energy-storage companies are significantly increasing their footprint in Australia, securing supply agreements totalling nearly ten gigawatt-hours and accelerating the shift of

China's solar majors charge into batteries as panel sales falter

China's solar manufacturers are entering a market dominated by battery giants such as CATL and BYD, but are betting on their supply-chain expertise and ability to offer integrated solar

China Energy Transition Review 2025

Wind, solar and battery storage deployment in China continues its exponential rise China's wind and solar generation capacity more than doubled in the three years to 2024, from 635

China-Aus Tech Collaboration: Chinese battery technology ...

Australia's push towards renewable energy faces a major challenge: how to store all that extra power.

China Solar Street Lights, Solar G-Battery, Solar Panel

Yangzhou Bright Solar Solutions Co.,Ltd: As one of the leading solar street lights, solar G-Battery, solar panel, LED lamp and light pole manufacturers and

Trina scores accelerated approval for 1 GWh Victorian battery project

Chinese solar giant Trinasolar's plans to build a 1,000 MWh battery energy storage system in Victoria's Kiewa Valley have been given the green light by the state government after
