

Current PV panel prices in Northern Europe

Overview

How much do solar panels cost today?

High-efficiency modules: The average price has risen to €0. Compared with January 2026, this represents a 13. 115/Wp and are expected to rise further. Germany averages €1,400–€1,600/kWp, Italy €1,100–€1,500/kWp, France €1,300–€1,700/kWp, and Spain €1,400–€1,800/kWp. Every month we publish a current price index on the development of wholesale prices of solar modules. The PPA report provides actual market benchmarks for renewable PPAs. The report illustrates the type of analysis that is possible with KYOS PPA. InfoLink's polysilicon price quotes exclude additional costs from special specifications or requirements (e. Currently, polysilicon with traceability data generally carries a quoted premium of RMB 3–5/kg. Polysilicon prices in dollar terms are prices for polysilicon. The '2025 Europe PV system pricing' report covers solar capex for 15 major countries across residential, commercial and utility-scale segments.

Solar Module Prices 2025: Complete Guide To Current Costs & Trends

Comprehensive guide to solar module prices in 2025. Current costs, market trends, buying strategies, and price forecasts. Updated with latest data.

Photovoltaic module prices 2026, how much do solar panels cost?

Updated guide to photovoltaic module prices shows current solar panel costs in Europe. High-efficiency modules have climbed to €0.115/Wp and are expected to rise further.

European Photovoltaic Panel Price Trends: What Buyers Need to

Summary: This analysis explores the current photovoltaic panel price trends in Europe, examining market drivers like raw material costs and policy changes. Discover regional price variations, future

PPA Insights

What are the current long-term solar and wind power prices? Our PPA Insights report shows prices for most European countries.

Photovoltaic Price Index

PRICE INDEX | May 2026 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main

EU Market Outlook for Solar Power: 2025 Mid-Year

The EU solar sector continues its upward trajectory, with mid-2025 figures confirming robust growth. SolarPower Europe's latest analysis highlights

European solar module price rise heralds "new pricing

PV module prices in Europe have risen after months of decline, driven by price increases from Chinese manufacturers and a tight supply of popular

Has the price turning point arrived? Are PV module prices going up?

After 18 months of continuous decline, PV module prices in Europe are stabilizing. Will there be further increases ahead?

European PV module purchasing platform reports 20

Solar module prices in Europe rose this week for the first time in months, says Bart Wansink, CEO of Search4Solar, a European sales platform

Solar Installation Cost per kWp Europe 2026: by Country

Northern Europe is Europe's most expensive solar installation region. High certified labour wages, stricter building codes, shorter installation seasons, and more complex structural

2025 Second-Half Outlook for the European Solar Industry

Five key trends shaping the European solar industry in the second half of 2025 — prices, policies, technologies, financing, and evaluation. This

Photovoltaik Preisindex

Jeden Monat veröffentlichen wir einen aktuellen Preisindex zur Entwicklung der Großhandelspreise von Solarmodulen. Dabei unterscheiden wir zwischen den im Markt hauptsächlich verfügbaren

INTERACTIVE: Platts Renewable Energy Price Explorer

Solar and wind power production in Europe's five biggest markets was up 10% year over year in July, but eased slightly from all-time highs in June and May, allowing capture prices to recover, Platts

PV Index - module prices climb as inverters dip

Prices for modules continued their climb in May on strong demand and limited supply, while inverter prices edged down. The PV Purchasing

2025 Europe PV System Pricing

The "2025 Europe PV system pricing" report covers solar capex for 15 major countries across residential, commercial and utility-scale segments. It includes detailed breakdowns for

Solar photovoltaic module prices vs. cumulative capacity

Average price of solar modules versus cumulative installed capacity. Prices are expressed in US dollars per watt, adjusted for inflation. Cumulative solar capacity

Solar module prices falling with no clear trend in sight

Solar module prices in Europe have fallen by up to €0.01 (\$0.01)/W this month, according to pvXchange, as the PV market shows resilience amid policy uncertainty and geopolitical risks.

Solar photovoltaic panel prices

Solar photovoltaic panel prices Average price of solar modules, expressed in US dollars per watt, adjusted for inflation.

New interactive map of renewable energy capture prices in Europe

Platts has launched an "interactive explorer" tool that shows the capture price received by wind and solar power assets, using hourly production and monthly average price data for Spain,

Solar Installation Cost per kWp Europe 2026: by Country

European Solar Installation Costs at a Glance The table below summarises current installed costs per kWp across major European markets, segmented by system type. Data reflects

European PV module price and buyer confidence fall in

In Europe, PV panel prices fell marginally between May and June, leading to a slight downturn in European module buyers' market confidence.

PV Index: Market sees signs of stabilisation as prices rebound in ...

After months of declining prices, January marked a turning point in the European solar market, with module prices experiencing a slight rebound. While the increases are still moderate,

PV spot price

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel

Photovoltaic Price Index

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market.
