

New Energy and Energy Storage Conference

Overview

2026 2nd International Conference on New Energy Engineering, Energy Storage and Micro-Grid Technology (NESMT 2026) will be held in Tianjin, China on June 5-7, 2026. As New York City leaders strive to create a more affordable, liveable City, rising energy prices and grid reliability are center stage. Please adjust your arrangements accordingly. This conference aims to bring together leading scholars, researchers, and industry. As Germany accelerates toward 24GW of utility-scale storage by 2037, asset owners and developers face a new reality: grid congestion, revenue cannibalisation and evolving market mechanisms. Energy Storage Summit Germany 2026, co-located with The Battery Show Europe, focuses on how storage assets. Plenary and invited talks from well-known experts across academia and industry will discuss the research progress and adoption of energy storage materials. NEESSC 2026 is sponsored by Inner Mongolia University of Technology and IEEE Beijing Section, organized by College of Electric Power, Inner Mongolia.
