

Our metal enclosures are designed to enable energy collection, storage and use. anywhere! The durable exterior means they perform well outside in harsh weather conditions – anywhere energy might be collec. We'll work with you to understand the health and safety protocols that need to be followed to keep your maintenance operators safe. All Amcanu enclosures have built-in access points for easy and safe maintenanc. The environment is always doing its best to destroy batteries, and portable batteries are often required in the most demanding locations – on flooded sites, out in all weather conditions, day and night. Our enclosures are d. Every Amcanu enclosure is designed and built to be fully bunded – pro-actively reducing the risk of accidental contamination from leaking fluids, including battery acid and coolants. Leak detection devices can also. Our customers like their new enclosures to be easily identifiable and look the part on-site. Our enclosures are finished with a high quality and robust electrostatic powder-coating- available in any brand colour. Any Amcanu enclosure can be galvanised. We can galvanise entire enclosures to give the most robust finish, or just protect critical parts that are most prone to wear or accidental damage.
